

### Back to School October 5, 2020

A guide for students

# Walk to your bus stop with your mask on properly.

# Enter the bus safely by putting space between you and your friends.

SOCIAL DISTANCING

# Stop to have your temperature taken by a parent ambassador.

## Sit while riding and keep your mask on your nose and mouth.

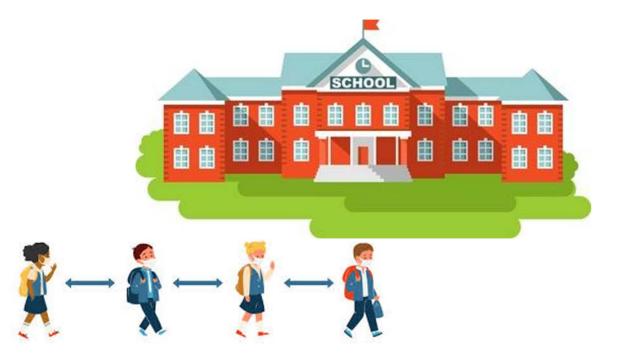

### When you leave the bus walk slowly and stay in line with your friends.

### Line up at your school to enter the building at 7:45am with a teacher.

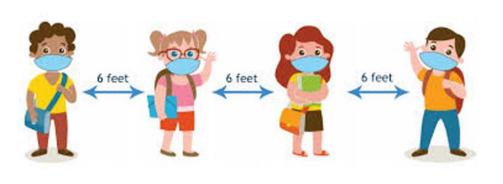

If a grown-up drops you off in the morning, line up at school to have your temperature taken by a school employee.

Enter your school and follow the directions of the teachers there to proceed to your classroom or to the cafeteria for breakfast.

When eating in the cafeteria or at your desk, you may take off your mask as long as there is a barrier in place.

Students stay seated while eating. Wave to your friends!

#### Read and follow the COVID signs at school.

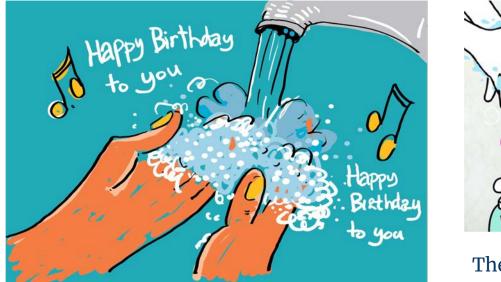

# Sanitize your hands at the doorway of your classroom.

Wash your hands in the bathroom with soap and water.

#### Sing "Happy Birthday" while washing.

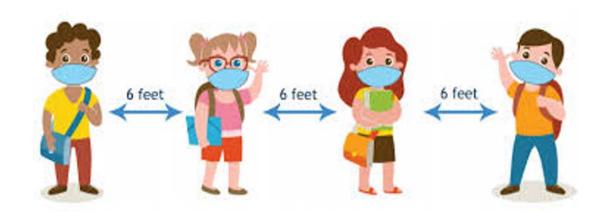

The "Happy Birthday" song lasts 15 seconds!

### Follow the arrows in the hallways to know which direction to walk.

### Put space between you and your friends in the hallways.

#### Keep your school supplies and books at your desk.

#### This year we are not sharing supplies with friends.

#### My own supplies

Remember to smile! This is only temporary. Your teachers and principals are here for you every day. You are important and we care about you!
